dot2 Node4 (1K)

Art.-No. 130215

The dot2 Node4 (1K) is the easy way to access four DMX outputs from a dot2 console.

The dot2 Node4 (1K) connects to a dot2 console or dot2 onPC software via a Plug & Play network connection. The user can easily choose output configuration 1-4 or 5-8 from the dot2 software set-up screen. The dot2 Node4 (1K) does not increase the channel capacity of an dot2 console, which is limited to 4,096 channels. Additionally the dot2 onPC software can output up to 1,024 channels of DMX when connected to an dot2 Node4 (1K)! Normal network rules apply allowing nodes to be placed remotely.

Features

- EASY OPERATION
- CLEVERNESS
- SUITABILITY
- MULTILINGUAL
- DESIGN
- MA DNA

Technical Specifications

Operating voltage/ Supply voltage	120/230V, 50/60Hz (automatic detection)
Power	25VA
Dimensions	130 x 195 x 46mm / 5.2 x 7.7 x 1.9inch
Net weight	0.85kg / 1.9lbs
Output connectors	4 x XLR 5pin (DMX)
Input connectors	1 x etherCON (dot2-Net)
