

# MA Digital Dimmer Rack 24 x 2.3kVA

with 24/2 hotpatch unit, in Amptown ABS case

Art.-No. 140803

The special sturdy MA Digital Dimmer Touring racks with Amptown ABS-case are delivered with two, three or four MA Digital Dimmer units of different capacities. They are all equipped with an integrated power distribution (CEE or Powerlock) including all required RCD and circuit breakers.

For the touring version a hotpatch panel is integrated as a standard feature. The dimmer racks are available in different sizes from 24 x 2.3kVA up to 48 x 3.7kVA with hotpatch panel. A 12 x 5.7kVA version without hotpatch unit also is available. Special dimmer racks custom-made by our master workshop will be delivered on request. Customers may also specify power outputs equipped with Harting HAN16E, ICP/Socapex, CEE17 or Schuko connectors. The system is completed by the excellent Amptown ABS cases for optimum safety during transport and with additional heavy duty wheels on the back for easy manoeuvrability. All touring versions are equipped with hotpatch units with test plug and goose neck lamps. The output panel can also be equipped with constant current outputs.

The MA 24 channel dimmer rack contains two MA Digital Dimmer Touring with 12 x 2.3kVA each. The rack is equipped with 63A power distribution including all required RCD breakers, a 24/4 hotpatch panel and 16 x Harting HAN16E sockets. It is delivered completely wired and in full working order.

## Features
