1. General
The software whether downloaded, pre-installed or made available to you by any other means is licensed to you, not sold, under the terms of this license.
MA Lighting retains legal ownership of the software itself and retains all rights to it unless expressly granted to you.
The terms of this license also govern all future upgrades, versions or updates provided by MA Lighting, even if the original software is replaced or supplemented
unless the software comes with a separate license that expressly supersedes this license.
These terms shall supersede previous terms and shall govern the use or prior versions of the software whether actively used or kept for backup purposes only.
Title and intellectual property rights in and to any content displayed by or accessed through the software belong to the respective content owner.
Such content may be protected by copyright or other intellectual property laws and treaties, and may be subject to terms of use of the third party providing such contents.
This license does not grant you any rights to use such content nor does it guarantee that such content will continue to be available to you.

2. Permitted License Uses and Restrictions

Subject to the terms and conditions of this license you are granted a limited non-exclusive license to use this software on multiple instances of MA Lighting approved or licensed hardware at any time, where licensed hardware refers to original equipment purchased from MA Lighting or its authorized distribution partners or to original equipment purchased used from an authorized third person.
You are entitled to upgrade or update only MA Lighting approved or license hardware with this software. Any installation, upgrade or update of the software on other hardware is a violation of the terms and conditions of this license.
You are not allowed to alter, modify, reverse-engineer the software or use the software to develop supplements which might infringe intellectual property rights of MA Lighting or of third parties or violate the terms and conditions of this license.

Any installation or copy of the software shall respect and display the copyright of MA Lighting in the software.
The software is provided to you as a whole and is not severable. The terms and conditions of this license shall apply therefore to the software as a whole and its components individually.

When updating or upgrading the software on any hardware, it may or may not be possible to keep multiple instances of the same software version or different software versions.
At any point in time shall the latest End User License Agreement supersede any other versions available on the hardware regardless of which version or instance of the software is used.

When upgrading or updating hardware with an alternative version of the software, MA Lighting is not responsible for the migration of your existing data.
MA Lighting provides the migration tools contained in the software only on a best effort and as is basis.
MA Lighting does not warrant any compatibility of existing data with other versions of the software.

MA Lighting does not warrant that any data stored by its software on any device will be readable by its software.

You are not allowed to operate the licensed software in connection with unauthorized port nodes (imitations of the MA 2-Port. 4-Port, 8-Port nodes) or unauthorized hardware (like imitations of MA fader wing
or MA command wing) which may enable the release of parameters for controlling devices without using original MA Lighting hardware.

Any modification to the software or hardware licensed by MA Lighting - unless expressly permitted by the applicable laws - will terminate the license stipulated herein and voids any responsibility
or liability unless required by law.

You may not and you agree not to, or to enable others to, or to help others to copy (except as expressly permitted by this license), decompile, reverse-engineer, disassemble,
attempt to derive the source code, decrypt, modify, or create derivative works of the MA Lighting software, or any part thereof (except as and only to the extent of any foregoing restriction is prohibited by applicable law or to the extent as may be permitted by licensing terms governing use of open source components).
You agree to use the software in compliance with all applicable laws, including local laws and customs of the country or region in which you reside or in which you download or use the software.
The software provides as its core objective control functionality for applications and devices that may or may not be third-party products.
By controlling these devices or applications with the software, MA Lighting does not assume any liability or responsibility for such products or applications.
MA Lighting has no express or implied obligation to provide any technical support and / or customer service for such third-party products or applications.
Please contact the respective manufacturer or application vendor directly for questions regarding these products.

MA Lighting does not assume any responsibility for compatibility or non-compatibility of third-party products or applications with its software.
Where appropriate, MA Lighting might make use of certain third-party or open source products, applications and licenses, to which the original owner retains the rights pertaining to intellectual property.
MA Lighting has no express or implied responsibility to provide support for these products, applications and licenses.

Only acceptance of this license and compliance with its terms (see item 6) grants you permission to make use of the software. Thus, in case you do not accept the license or do not comply with its terms,
using the software would infringe the copyright of MA Lighting and be prohibited by law.

Nevertheless, you agree to use the software at your sole risk and that MA Lighting shall have no liability to you or any third party for content that may be found to be offensive, indecent, or objectionable.
Certain features may allow you to display, include or make available content, data, information, applications or materials from third parties ("Third-Party Materials").
By using the software, you acknowledge and agree that MA Lighting is not responsible for examining or evaluating the content, accuracy, completeness, timeliness, validity, copyright compliance,
legality, decency, quality or any other aspect of such third-party materials.
MA Lighting, its officers, affiliates and subsidiaries do not warrant or endorse and do not assume and will not have any liability or responsibility to you or any other person for any third-party materials
or for any other materials, products, or services of third parties.
Financial information displayed by any feature of the software is for general informational purposes only and should not be relied upon as investment advice.
